Objective

Seeking a position to use and apply acquired knowledge from previous roles and relevant coursework. A technically and creatively inclined individual excited to apply skills and experience that will optimize your business operations.

EDUCATION

Kalamazoo Valley Community College - Kalamazoo, MI

Associates of Applied Sciences, Occupational Technical Studies   -   Honors list (3.67 gpa)   *2022 - 2024*
- Web Development emphasis

Ivy Technological University - Bloomington, IN

Associates of Applied Sciences   *Transferred*
- Cyber Security and IT emphasis

PROFESSIONAL EXPERIENCE

Green Bay Packaging, Kalamazoo, MI   *August 2024*

IT Intern
- Worked on deployment and reassigning of LAP's to deploy a new line of computers for 90% of our manufacturing and office facilities.
- Assisted in reducing the ticket count by 25% with my coordinator as well as reducing the overall age of tickets by 15%.
- Created the first powerBI dashboard that my division had ever produced. Its purpose was to compare production numbers from previous years to see if current efficiency matched or exceeded previous years.

BusStop Computing, Mattawan, MI   *2022 - 2023*

Web Developer / SEO
- Redesigned and formatted over 200 legacy pages to comply with accessibility guidelines.
- Applied SEO practices such as the addition of meta tags, and performed site audits to push the main pages higher in Google.
- Worked with SEO auditing tools and assisted the main SEO team with indexing for alternative search engines such as Bing.
